

Growing with Concepts: Physics

We regret our inability to maintain continuity of this column in past few months.

Our commitments, during these months on activities related to the initiative including holding of Interactive Online Mentoring Sessions (IOMS) has helped to stabilize them.

We are happy to share with you that we are resuming our efforts to enrich Physics Section of Mentors' Manual through this column in Web-Bulletin from November, 2020.

We sincerely thank you for bearing with us....
